

Indra, Misery

(Beatboxing/C. Grier)

Voice:

Indra, I've got this voice that will melt you
You got this way that you make me move,
that you make me feel
Oh Indra, whatcha talkin' about misery.

Ah, kick it

It isn't just that I want you to feel bad
Take my advice I want you to get mad
Worth it, it's not an illusion,
I'm not the one causin' all the confusion

That's right you were the one that walked out
Thought you had scored a clean knock out
I'm not the one hurting you'll see,
now try and stop this misery

Misery is the latest game for you
Misery, bad dreams will now come true
Misery is my last perfect gift to you
Misery, so you think that we're through

Voice:

Come and dance in the house

One, two, three

I could call you a worm but that would be too sweet
Take it or leave it now get your feet movin'
That's right out on the street where you belong don't make me repeat
See what your dirty deals got, you hear what I'm saying,
I don't wanna to stop you
Get you down on your knees praying
Misery in your house will be staying

Misery is the latest game for you
Misery, bad dreams will now come true
Misery is my last perfect gift to you
Misery, so you think that we're through

Oh oh, come on come on, oh oh, get down
Oh oh, come on come on, oh oh, get down
Oh oh, come on come on, oh oh, get down
Oh oh, come on come on, oh oh, get down
Oh oh, come on come on, oh oh, get down
Oh oh, come on come on, oh oh, get down
Oh oh, come on come on, oh oh, get down

Misery is the latest game for you
Misery, bad dreams will now come true
Misery is my last perfect gift to you
Misery, so you think that we're through

Misery is the latest game for you
Misery, bad dreams will now come true
Misery is my last perfect gift to you
Misery, so you think that we're through

Misery is the latest game for you
Misery, bad dreams will now come true
Misery is my last perfect gift to you
Misery, so you think that we're through

No more criticizing, so you think that we're through
No more criticizing, so you think that we're through

Oh oh, come on come on, oh oh, get down
Oh oh, come on come on, oh oh, get down
Oh oh, come on come on, oh oh, get down
Oh oh, come on come on, oh oh, get down

Misery is the latest game for you
Misery, bad dreams will now come true
Misery is my last perfect gift to you

Misery, so you think that we're through...
