

# Indra, Two Hearts

Two hearts are on their way  
They wanna stay but they didn't come together  
Two hearts are on their way  
They wanna stay but they didn't come together again

She is working hard,  
He's the kind of man who could never win  
She believes in love and don't believe in pain  
They are different in ..... way  
Can they swallow all their pride  
Disappointment is filling their mind  
And they feel it deep inside

Two hearts  
They try in vain, they will be never together again  
Two hearts  
They try in vain, they will be never together again

He is far away and the times are gone  
And the sky is blue  
Nothing left to say, nothing left to do  
She believes he'll return just one day  
There's no end for the love we share  
He'll remember the time that .....  
Was it more than a love affair

Two hearts cannot come together  
They are too different  
No-one wanna change his mind  
They live their own life  
And finally their are two lonely hearts

And finally they're two lonely hearts.
