

Indra, We Belong Together

(A. Breitung)

We belong together
Like summer and sun
We belong together
You're my number one
We belong together
Like summer and sun
We belong together
You're my number one
I'll never leave you alone

We belong together

Don't you know
You were treating me so bad?
It was more
Than a love affair we had

In my mind
I never loved someone like you before
And I cannot ignore
You made my life just more than a foolish game
Since the day you came

We belong together
Like summer and sun
We belong together
You're my number one
I'll never leave you alone
We belong together
(It feels like I'm in heaven)
Like summer and sun
(A love I've never known)
We belong together
(I wanna stay forever)
You're my number one
I'll never leave you alone
We belong together

Is it true?
Don't you want me anymore?
Tell me why
Can you feel the same as before?

When you're gone
I feel so lonely waiting all night long
'Cause together we're strong
I always wanna make you feel the same
Since the day you came

We belong together
Like summer and sun
We belong together
You're my number one
I'll never leave you alone
We belong together
(It feels like I'm in heaven)
Like summer and sun
(A love I've never known)
We belong together
(I wanna stay forever)
You're my number one
I'll never leave you alone

We belong together
Like summer and sun
We belong together
You're my number one
I'll never leave you alone
We belong together
(It feels like I'm in heaven)
Like summer and sun
(A love I've never known)
We belong together
(I wanna stay forever)
You're my number one
I'll never leave you alone

We belong together
Like summer and sun
We belong together
You're my number one
I'll never leave you alone
We belong together
(It feels like I'm in heaven)
Like summer and sun
(A love I've never known)
We belong together
(I wanna stay forever)
You're my number one
I'll never leave you alone
