

# Infinite Mass, Fire Fire

Aaaaaaaa!

Oh no! Gotta get away!

Man see that girl she's pushing right there man.

Oh! Nice one! Where you make it she's been?

Plus then I can find lace that never end

She don't have heart, man, hell nah!

So don't let her rip you apart, hell nah!

She's so bad, so bad it hurts.

So if you got the chance you better splurk

Some says life's short but she don't care

Cause she's made to live a paradise like me

But she's got her hair done right

She's got her nails done right

She's so fine, a whole lot of more,

Make it high but sling me down to the floor

Play with fire get burned

So it's time to make a U-turn

Fire fire she's all in my veins

Takes me higher higher, I'm in love she's cocaine

Fire fire, fire you good

She loves having fun

But she's got me on the run

Eeny meeny likes this easy

Way you walking that bikini

Burning hot, parental advice, can't get enough of sweet brown thighs

Give me a kiss (I won't tell)

Wish me well before they send me to hell

Laid back in a gangsta league, all I need is a highway queen

Fire fire she's all in my veins

Takes me higher higher

I'm in love she's cocaine

Fire fire, fire you good

She loves having fun

But she's got me on the run

Girl you're looking sexy with you're murdering style

I know I play with fire but you drive me kinda wild

Girl you looking "phoo!" with your murdering style

I know I gotta go but you make me wanna stay

I ire

It's a murderplay

I ire

It's a killer way

Fire fire she's all in my veins

Takes me higher higher

I'm in love she's cocaine

Fire fire, fire you good

Fire fire she's all in my veins

Takes me higher higher

I'm in love she's cocaine

Fire fire, fire you good

She loves having fun

But she's got me on the run

But she's got me on the run, run run

But she's got me on the run

But she's got me on the run, run run

But she's got me on the run
