

Informatik, Autonomous

Welcome this is central control
We decide what's good for your soul
Do not bother to resist us
we know your friends and they'll assist us

There is safety in sameness
why go and blame us
we're not mistaken
you'll be happier this way

With not much left to discuss,
there's no use feeling anonymous
I'd rather find out for myself,
so I must remain autonomous (twice)

How can you still think it perverse
when a greater good is being served
Everyone please pay attention,
reality's your own invention

There is safety in sameness
why go and blame us
we're not mistaken
you'll be happier this way

With not much left to discuss,
there's no use feeling anonymous
I'd rather find out for myself,
so I must remain autonomous (twice)

I've seen it with my own two eyes
you twist the truth into your lies
I do not hear a word you say
So save your breath and go away
I'm not like you, I'm not the same
Just try to make me play your game
There is one thing that you can trust
I will remain autonomous

With not much left to discuss,
there's no use feeling anonymous
I'd rather find out for myself,
so I must remain autonomous (twice)
