

# Information Society, Ending World 1.1

I've read the book  
I've been the film  
I've heard the song  
now I live the life  
you come from across the sea  
and you shudder when you listen to me  
but I know I'm all right  
because I am american  
I know my sitcoms  
I stay informed  
They smile at me on my TV  
They make me feel so good  
They'd come to me if they only could  
I've read the book
