Information Society, Give It Up

I made my way back down to the valley
Right on past 83rd street
That's where we once belonged,
But I'm gone, I swear I'm long gone

So give it up
Throw your hats in the air
And change just as it lands saying
We'll get out of here
Something tells me that you're too scared to go
Ohh

So the stairs that you could climb
Are the ones that you've left behind
And your eyes light up
When we talk about the past

God, I miss those song we used sing
Talking like getting away would be the greatest thing
Well me, I got out
And you, you kept singing to me
Like it's really going to set this free

So give it up
Throw your hats in the air
And change just as it lands saying
We'll get out of here
Something tells me that you're too scared to go
Ohh

Like a ghost
You've been haunting all these dusty old roads
And old homes
The ones we swore we'd never go
Oh oh, oh oh ohh

As for Joe, oh, I've seen him around
Then there's Adam, he's afraid to go out
I don't blame him
I just wanted to go out to eat
Then there's Mark, God damn, I wish him the best
We were kids back then as if we could progress
Just sometimes I, I just can't sleep thinking
Of everything we coulda been

So give it up
Throw your hats in the air
And change just as it lands saying
We'll get out of here
Something tells me that you're too scared to go
Ohh

So give it up
Throw your hats in the air
And change just as it lands saying
We'll get out of here
Something tells me that you're too scared to go
Ohh
