

Information Society, How Long

Do you recall that winter evening
The night that I said I'm leaving
Hoping
you would change my mind
I lay my head up on your kness and
Whispered please but inside I was
Leaving
I'm the leaving kind
I could put you off forever
This longing has no end
How long
Til you and I can be together
How long
Until we see this through
How long
Until we know that this is forever
How long
Til I say I love you
And when the burning leaves are falling
I can always hear you calling
Fearing
That we are losing ground
But in you secret hearts we're knowing
Our love is winter and It's snowing
Falling
Comfort coming down
I could put you off forever
This longing has no end
Advertising lasts a lifetime
If not now then when?
