Information Society, Peace And Love Incorporate

I'm not exactly in the mood for Mozard, so

To the city To, to, to the city

Look at the world It's a complicated place And it's hard to keep the pace You've got to wear a smiley face

If you've got to believe in something Believe in peace It can be so easy If you've got to believe in someone Believe in me It can be so cheesy

Peace and love incorporated

Welcome, welcome To peace and love incorporated (2x)
