

Inhale Exhale, Rose Among The Ashes

Staring out the window
Memories of you and I
I never wanted things to be like this
You'll always be close to my heart
And I will never forget the times we've had

For you my friend, I miss the times
I don't want this all to be the end
Understanding won't mean a thing
It's hard to deal with what's come between us

I'll hope that one day you'll forgive
Though I've been foolish with your trust
Percussion!
The heat that drove my life for two years, let's not make this the end

For you my friend, I miss the times
I don't want this all to be the end
Understanding won't mean a thing
It's hard to deal with what's come between us

Oh, no
Watch out, I'm coming back, my friend
I'm sorry for the things I've done
For you, my friend
Remember our talks till 3 AM
It feels like it was just yesterday
Please take this plea because it's all I have
Please take my plea because it's all I have
