

Inna, Fall In Love / Lie

So forget the risk and leave it all behind,
Fall in love, fall in lie.
So forget the risk and leave it all behind,
We can fall in love or we can fall in lie.

This is how it goes, not complicated,
Want you tonight, like uhh.
Going with the flow, I can't seem to stop this,
Scared to let you go, like uhh.

All I need is my self-control,
But you make me wanna lose it all.
Believe in everything you say,
I don't wanna leave this way.

So forget the risk and leave it all behind,
We can all in love or we can fall in lie.
So forget the risk and leave it all behind,
We can fall in love or we can fall in lie.

So forget the risk and leave it all behind,
We can fall in love or we can fall in lie.
So forget the risk and leave it all behind,
We can fall in love or we can fall in lie.

Promises we break, love can get tainted,
Whispers in my ear be like uhh.
You could take me there, every second we can get
A sweet love affair like uhh.

All I need is my self-control,
But you make me wanna lose it all.
Believe in everything you say,
I don't wanna leave this way.

So forget the risk and leave it all behind,
We can all in love or we can fall in lie.
So forget the risk and leave it all behind,
We can fall in love or we can fall in lie.

So forget the risk and leave it all behind,
We can fall in love or we can fall in lie.
So forget the risk and leave it all behind,
We can fall in love or we can fall in lie.

Fall in love, fall in lie,
Fall in love or fall in lie.
Fall in love, fall in lie,
Fall in love or fall in lie.

So forget the risk and leave it all behind,
We can all in love or we can fall in lie.
So forget the risk and leave it all behind,
We can fall in love or we can fall in lie.
