

# Innerpartysystem, The heart of fire

You remember me from a better time  
Infatuation with each other could summarize  
All this is tied to the love  
The love you had assumed would never die  
I can't remember what i had said  
Something remeniscent of a relationship  
It was easier to lack the truth  
Then tell you how i feel  
But i will surround your heart with lies until the end  
I remember you from a better time  
Conversation saturated with telling lies  
All this comes back to the love  
The love i spoke with honest and pure eyes  
Now i remember what i had done  
Something meaningful to get you and fall in love  
It was easier to tell you  
Everything you want to hear  
But i will surround your heart with lies  
And it's a heavy burden on me baby  
A heavy burden i have never felt before  
Sit back, relax, recover  
A fine time for me to mention you  
Get down, regret and wonder  
Who really ever tells the truth  
Sit back, relax, recover  
A fine time for me forgetting you  
Get down, regret and wonder  
Who really ever tells the truth  
I will surround your heart with lies  
And it's a heavy burden on me baby  
A heavy burden i have never felt before
