

Insolence, Poison Well

Well it happen again like the time before
Took a trip through my mental and find a small door
To a passage written through time this is my mindset
You find it deeper inside the strong-minded
I find the energy and feel fire
Changes the gravity inside of me
We have no time to fret
No time for regret
If the poison doesn't kill us we come live and direct

This is my life
This is my hell
Straight took a journey
to the poison well
This is my life
This is my hell
Straight took a journey
to the poison well

My brain strains
I feel no pain
All kinds a chemicals race through my brain
This and that well let me counter act
I'm lost in the vortex and ain't comin back
I become you and you become me
Lost in dream of fact or fantasy
Hallucinations from red to green find the
Calculations for why we fiend

This is my life
This is my hell
Straight took a journey
to the poison well
This is my life

You can break it down but it still makes no sense

So sick science cant even contain
Is there any thought process that remains
This is my brain

Is there any thought process that remains
