

INXS, Good + Bad Times

You must have heard
Of all the rules
Thick and thin
Teaches you hard
And all the tricks
Come back on you
Leave them behind
There's a better way
A better way

All along you must have known
Where your life was leading
The good and bad times
Where your life was leading

And I know you've been through hell
Yes I know all about it
And I've seen your cool white face
But I can't seem to care about it
Care about it
