

INXS, Red Red Sun

There's a red red sun
And it's coming for you
I tell it a story
As it sinks out of view

One sun apart
One heart within
Red sun shines on
Sees no tomorrow
Sees no tomorrow

There's a girl far away
And she's calling my name
With a tower of love
And a shadow of pain

There's a red red sun
And it's coming for you
To waken your heart
Like you know I always will do
