

# Iron And Wine, In Your Own Time

In your own time  
You'll dream something evil  
Sing like an old crow  
And worship the land

Don't be scared  
If I walk with the devil  
Run down the mountain  
And ask for your hand

'Cause we only want a life  
That's well worth living  
And sleeping is  
No kind of life at all

Come meet the family  
And sit by the fire  
Someone will catch you  
If you want to fall

In your own time  
You'll dance in the moonlight  
Smoke like a freight train  
And fuck like a dog

Don't be scared  
If I tell you I love you  
I'll be good to you  
Then I'll be gone

'Cause we only want a life  
That's well worth living  
And sleeping  
Ain't no kind of life at all

Come meet the family  
Get warm by the fire  
Someone will catch you  
If you want to fall
