

# Iron Maiden, Tailgunner

(Harris/Dickinson)

Trace your way back 50 years  
To the Glow of Dresden - blood and tears  
In the black above by the cruel searchlight  
Men will die and men will fight - yeah!  
Who shot who and who fired first?  
Dripping death to whet the bloodthirst  
No radar lock on - skin and bone  
The bomber boys are going home

[Chorus:]

Climb into the sky never wonder why - Tail gunner

You're a Tail gunner

[Repeat]

Nail that Fokker kill that son,  
Gonna blow your guts out with my gun,  
The weather forecasts good for War  
Cologne and Frankfurt? have some more!  
Tail end Charlie in the boiling sky  
The Enola Gay was my last try  
Now that this Tail gunner's gone  
No more Bombers (just one big bomb)

[Chorus]
