Iron Savior, Prisoner Of The Void

[Music and lyrics by P. Sielck] [All vocals by Piet]

Have I returned from the dead a lightning was striking my head Clarity's filling my mind I am refined

Unlock the gate to reality Leaving the maze to be free Tangled in a realm of fantasy and dreams Blinded by delusion and pain I must escape - break the chain

Countless years of existence in the cold Now I'm at the mercy of the one I've once controlled

From far beyond the ending of all time I saw the light saving me from the night Eternal slave your master has returned Obey and release me The prisoner of the void

Uhh, I've been traveling the darkest dimension A disembodied soul in damnation But then I found sanctuary Peaceful rest in my own entity

Now I realize
We have reached the final shore
Oh, I can't allow him
To destroy it anymore

From far beyond

Demons of time I have felt your embrace Out in the vastness now I know your face Oh I gave into the power of thought Now I must use it to leave my Sepulchral vault

[Solo: Piet / both/ Kai]

From far beyond the ending of all time I saw the light saving me from the night Eternal slave Your master has returned Hear my command

From far beyond
I have been seeing the light
Eternal gods
Hear my entreaty and free me
Release me from the void
