

Israel Vibration, Babylon By Bus

Trodding through your area, Babylon by bus.
Jah say teach the people well. Unite, them righteous.
No time to argue or debate.
Love and unity will trod from state to state.

Teach your children black, brown and white.
So when they grow up, they love and unite.
All them drugs gonna keep them low.
Give them food, clothes and shelter, let them grow.

Don't fight children. Black, brown, white: You must start uniting.
We a Jah bless children. Throw away racial fuss and fighting.
Cause when we irie, we fit so tightly.
And there's no one who can come between we.

Open your eyes and look within:
Are your dreams of love and happiness fulfilling?
Homeless people. Hungry children.
It's a breeding ground for crime, you got to help them.

Love and sharing.
Black, brown, white, no more false pretending.
It's togetherness children.
Truth and rights I and I defending.

Some don't want us to live together.
All they want is to see us kill each other.
So them a plot and so them scheme
Causing racial riot, deadly bloody scene.

Do you want that? Do you want this?
Then forward up yourself and don't resist this.
jah love feeling. Black, brown, white what a lovely feeling.
It's togetherness children.
Feel so good you want to touch the ceiling.

Babylon by bus
we bring you Jahjah sound
If you stick around
we wont let you down
