

# ItaloBrothers, London

(All around the place we go to Lon Lon don  
Then it's down one town  
Just for the love love  
See the lights Paris  
Then we can run run back  
Meet at the beginning all again...)

I'm looking in her London eyes  
I wana travel round her mind  
I wana be away for a long time  
Never just a night want this for life  
Keeping me alive stay by side  
If you feel the same  
We should catch a plane yeah hey

All around the place we go to London  
Then it's down one town  
Just for the love love  
See the lights Paris  
Then we can run run back  
Meet at the beginning all again yeah  
All around the place  
Hey I'm in London thinking bout the one one  
I'll take the thunder with the sun and wonder back  
Meet at the beginning all again yeah  
All around the place  
All around the place

We're in the city of royalty  
I feel the love your loyalty  
Brings over me that's why we fly  
All around the world then come back home  
We would never forget where we're from  
Still my favourite place, you can set the pace yeah hey
