ItaloBrothers, Welcome To The Dancefloor

Welcome to the dance floor Show me that you want more Let the music take you there We bring these freaky noises Show the world the voices Live the moment here right now

Can you feel it? Something's in the air Can you feel it? Live, live the moment right now

Something's in the air

Lady, maybe, this party's out of control Lady, maybe, this is how we flow Out of control

Welcome to the dance floor Show me that you want more Let the music take you there We bring these freaky noises Show the world the voices Live the moment here right

Can you feel it? Something's in the air Can you feel it? Live, live the moment right now
