

# IU (□□□), LILAC (□□□)

Carried pollen tingling my eyes  
Haj ja  
I'll bear my tears  
It's the moment i'll keep in my secret orgel box  
And rewind it forever

Take a good care of our last moment in the page  
Could this last goodbye  
Be any more perfect?  
Love me only till this spring

Oh Lilac  
The day under the petals canopy goodbye  
This ending matches right  
It;s liek the falling petals
