

Ivva, Lover

I never knew that a lover
Could bring such calmness
I want to cherish each other
Today and in a thousand days

Kiss his belly stroke his hair
Hold him when he s fragile
All these things I promise not To forget

Not to forget how to love you my lover
How to love you my lover
I will love you always

I never knew that a lover
Would make me grow so
I want to make him feel always So at ease
I never knew that I d be...
I never knew that I d feel...
I never knew that I would...
But I do

Love, love (x2)

I will love you always
I will love you always
I will love you always
My lover
