

# Ivy, Drag You Down

In the back of the bus  
I caught you smiling at the rain  
Your breath steaming  
On the window  
You've never looked  
So completely sane  
Now heaven knows where I am  
Heaven knows I did all I can  
Heaven knows you'll go far  
But heaven knows you're a dying star  
In the back of the bus  
I caught you smiling at the rain  
I turned gliding to the pavement  
I've never seen you that way again  
Now heaven knows where I am  
Heaven knows I did all I can  
Heaven knows you'll go far  
But heaven knows you're a dying star  
I've seen the wave you ride on....  
I've seen the wave you ride on...  
I've seen the wave you'll die on  
Now heaven knows where I am  
Heaven knows I did all I can  
Heaven knows you'll go far  
But heaven knows you're a dying star
