

J.J. Cale, Begin To Wonder

When i'm walking down the street i call your name,
Inside my head i go insane,
don't you know that its really making me crazy
There were days when i went completely blind,
No time to think,and i lost time,
won't believe whats happened to me lately,
Cuz everyday its the same thing,different faces with no names,
places i've never been before,
and everyday its the same thing,different faces with no names,
places i've never been before
And I begin to wonder(don't ya know that its really making me crazy)
And I begin to wonder(won't believe whats happened to me lately)
Cuz everyday its the same thing,different faces with no names
places i've never been before,
and everyday its the same thing,different faces with no names,
places i've never been before
When i'm walking down the street i call your name,
inside my head i go insane,
don't ya know that its really making me crazy,
there were days when i went completely blind,
no time to think,and i lost time,
won't believe whats happened to me lately,
cuz everyday its the same thing,different faces with no names,
places i've never been before,
and everyday its the same thing,different faces with no names,
places i've never been before,
And I begin to wonder(don't ya know that its really making me crazy)
And I begin to wonder(won't believe whats happened to me lately)
Cuz everyday its the same thing,different faces with no names,
places i've never been before,
and everyday its the same thing,different faces with no names,
places i've never been before,
Your walking down the street i call your name,
(you know i was calling you the other day,you didn't hear me)
When making love to me,i do the same,
(You make things come out of me that i never thought i'd do before)
And there were days when i went completely blind,
(I was slowly out of my head,and you've made me go crazy)
No time to think,I lost time,
(I didn't know where i was,i was totally gone)
And i begin to wonder
(you know i was calling you the other day,you didn't hear me)
And I begin to wonder
(you make things come out of me that i never thought i'd do before)
And i begin to wonder
(i was totally out of my head,and you made me go crazy)
And i begin to wonder
(I didn't know where i went,i was so totally gone)
And i begin to wonder
