J.J. Cale, Carry On

(J.J. Cale)

If life's little downs they keep coming around Carry on, carry on With darkness all about, you want to scream and shout Carry on, carry on Don't cry baby, look at where you've been Everybody knows you just need a friend Please, please, if you're down on your knees Carry on, carry on Your head is full of doubt, you can't figure it out Carry on, carry on Between the time it takes to make all those mistakes Carry on, carry on It don't matter what you say or do It just seems to work out if you want it to Let out all the slack, take it off your back Carry on, carry on Let me bend your ear, never shed a tear Carry on, carry on Carry on, carry on
