

J.J. Cale & Eric Clapton, Three Little Girls

When this world got me feeling low
I don't need nowhere else to go
Cause I get all the love I need, from
Three little girls

We're in the garden collecting snails
On the bed reading fairy tales
I get all I'll ever need from
Three little girls

Cause all my world was sad and weary
All my days were winding down
Then you showed me a better way
My three little girls

Lord, you've put me to the test
And lead me through the wilderness
Then you showed me a brighter day
With Three little girls

Julie Rose, and Ellie Mae,
Sophie Belle, You came to stay
You take my breath away
My three little girls

Cause all my world was sad and weary
All my days were winding down
You showed me a better way
My three little girls
