

J-Status, Should I?

[Verse 1:]

Boy your standin real close to me
Tell me now what's it gonna be
U like what you see
But lovin don't come easily
Now your whisperin in my ear
All the things that I wanna hear
Now let me make it very clear
Words are not enough for me
Did you think that you could smile and steal my heart away?
Can't deny I like your style
But it just don't work that way

[Chorus:]

Oooh
I'm kinda feelin ya right now
U keep me standin tight now
It's gettin hard to fight now
Still I wonder, wonder should I
Oooh
U know their playin my song now
U know your turnin me on now
The feelings gettin strong now
Still I wonder, wonder should I

[Verse 2:]

Back n forth
Baby round n round
So high that I can't come down
It's too late to turn back now
Still I'm scared to lose control
Feel the heat burnin like the sun
Feel the beat as we move as one
Don't stop till the night is done
Hold me close boy
Don't let go
Still I got to know if this is real or just a dream
Because in the mornin my true love is what I wanna see

[Chorus:]

Oooh
I'm kinda feelin you right now
You got me standin tight now
It's gettin hard to fight now
Still I wonder, wonder should I
Oooh
U know they're playin my song now
U know your turnin me on now
The feelings gettin strong now
Still I wonder, wonder should iiii
