[Verse One: Nas]  
My enemies want sorta the same respect I was born with  
Godson, tatted on my chest it's permanent  
The rap Albert Anastasia; you cowards  
Y'all want the crown from the black power man of Asia  
Snap out your dreams and prayers of takin a king's paper  
Ask another rapper how it feels to lose his whole gangsta  
(How it feel?) Youse a no namesta - ya little mans is no threat  
You make me upset I might stank ya (blastin)  
Inc. is the Murdah, Ill Will merger let my cash  
make sex with yo' cash, it can't hurt us  
Phones ringing off the hook, Bush and Bloomberg callin me constant  
Streets wanna know the cause of that gossip  
Nas is lord of the projects 'til the coffins drop  
in the ocean like a Amistad slave overboat when  
It's a new day ya should be scared I'm back with Stoute  
Southside, Queensbridge, the hood's in here

[Chorus: Ashanti + (Nas)]  
There's no me (uh talk to me) without you (There's no me y'all)  
I can't be (I.N.C.) without you (Ill Will now)
