

Jaci Velasquez, Crystal Clear

When I'm a sparrow in winter
You are the seed I find
When I'm a heart with a splinter
Your whole blood, keeps me alive
If I could call you a color
You'd be the deepest of blues
If I had my pleasure of anything
You'd be the one that I'd choose

Chorus:

Now it's crystal clear I'm falling for You
Now that I can see the mysteries revealed
Now I'm coming clean
I can feel my fears release
Now it's crystal clear I'm falling for You
I'm soft like clay
Your hands they mold me
For You, I would run away
Just to hear You calling out my name

Chorus

Bridge:

I'm broken and empty
Without You, I'm blinded
I need You,
I need You near me, I need You near me
Oooh...I'm falling

Chorus

Please catch me, I'm falling for you
Please catch me, I'm falling for you
Please catch me, I'm falling for you
Please catch me, I'm falling for...
