

Jaci Velasquez, Glory

Jim Boggia & Andy Kravitz

CHORUS:

I see the glory

There's glory all around in the world

And glory has been found--it surrounds me

And opens my mind and heart

Looking for meaning

Wandering around with no direction

I'd rush to take that next big step

To make it that much more ahead

I went for the horizon

And I found the glory of your love

CHORUS

We've been through stormy weather

Now I know You're love's with me forever

You're here to take that step with me

You're by my side eternally

I went for the horizon

And I found the glory of Your love

CHORUS
