

Jaci Velasquez, He's My Savior

He's the sunlight in my sky, He is the moon that shines at night

He's the rainbow over me, the river running to the sea
The music and the poetry, the beauty that my eyes can see
Still His love means so much more to me

Chorus:

He's my Savior and everything within me
Wants to tell the world it's true
He's my Savior if only you could open up your heart
You would know Him, too

He's the fire in my soul, He melts my heart
And makes me whole

He's the air upon my breath
the gentle touch of holiness
Just for me He gave His life and
in that moment paid the price

For all I've ever done and that is why

Chorus:

He's my Savior and everything within me
Wants to tell the world it's true
He's my Savior the moment that you open up your heart
You will know Him, too

Bridge:

I can take you there but I can't cross the line
It's my deepest prayer that this will be your time

ohh ohh yeah

ohh ohh yeah

Just for me He gave His life and in the moment paid the

price

For all I've ever done and that is why

Chorus:

He's my Savior my best friend
He's my Savior He's my Savior, He saved me
He's my Savior and everything within me wants to
Tell the world it's true it's true it's true
He's my Savior the moment that you open up your heart
You will know Him too
