

Jaci Velasquez, Unspoken

I hear daily news
People cry out for their freedom
My eyes turn to You
Don't they know Lord
You can lead them

CHORUS

If we all pray for peace
Change will come I believe
As we face the unknown
God heals us when we're broken
He is there, use your voice
Reach for Him
Make a choice

None of us are alone
Don't leave your heart unspoken
God heals us when we're broken
Don't leave your heart unspoken
I pray, save our souls
Help us find a new direction
We're lost in the cold
Let Your arms be our protection

CHORUS

God heals us when we're broken
Don't leave your heart unspoken
Out of the dark
Into the light
He is there for us
With all His might
He has the answers
He hears your prayers
Turn every corner and you'll find Him there
Don't leave your heart unspoken

CHORUS

God heals us when we're broken
Don't leave your heart unspoken
