

Jaci Velasquez, We Will Overcome

Mark Heimermann, Regie Hamm, & Bob Farrell

Sometimes you're weak and weary
Feels like your heart is breaking
Nobody close enough to ease your mind
Seems like the night is falling
The darkness has you crawling
You wonder if you'll ever reach the light
But you've got to know
That the Father's always there by your side

Chorus:

We will overcome
Heartache and sorrow
We will overcome
All the pain in the world
We will rise above
The cares of tomorrow
We will overcome
We all get disillusioned
With all of life's confusion
Sometimes we simply have to walk by faith
The road may not be easy
But there is a hope and healing
Remember help is just a prayer away
So don't be afraid
He will give us all the strength that we need

Chorus

When we struggle
Through the hard times
There's a peace that comes from the Lord
Just remember He is faithful
So believe and trust in Him more
And don't be afraid
He will give us all the strength that we need

Chorus
