

# Jack Bruce, Hey Now Princess

Look now princess  
I'm not here just for you  
So take off in your BMW  
I've got important things to do  
Look here princess  
I gave you everything  
But now I want it all back  
So I can start some living  
Princess, look now  
I want to be famous and rich  
So I can be empty and bitter like you  
Princess look now  
I've got fifteen women called Sue  
Twenty women called Jane,  
And I'm sad...

Look here princess  
I'm singin' this sad song  
About a man in a kennel  
Who cries all day long  
Look here princess  
Don't shut me out for good  
But keep me in your mind for later  
Like I always knew you would  
Look here princess  
I'm in a desert now  
I don't see no way out  
You've got to show me how  
Princess look now  
I've got fifteen women called Sue  
Twenty women called Jane,  
And I'm sad...

Look here princess  
I didn't mean to sneer  
But your runnin' 'round havin' plenty fun  
While I'm sitting alone with my fear  
Princess, look now  
I want my time again  
You know it all went bad  
And I missed the last train  
Look here princess  
It's got to be better than this  
'Cos I'm in prison and hell right now  
And I've worn out both my wrists  
Look here princess  
I've got fifteen women called Sue  
Twenty women called Jane,  
And I'm sad...
