

Jack Bruce, Keep It Down

Keep it down
If it's still hangin' around
Kept away
Well it's lost inside a day
On the journey through the street
To the corner you have to meet
Keep keepin' it down
If it's hangin' around

In the dawn
When the last drop it has gone
Summer leaves
From the hill where my love grieves
In the sun where you met her
In the shade where you left her
Keep keepin' it down
If it's hangin' around

You've got to keep it down
And never let it go to the top
'Cause you know that if it does
The roundabout is nevvver gonna stop, never gonna stop

In the night
There's a space replaces your face
That you lent
I don't know just how it went
Though the trains have passed it by
It still sits up in your sky
Keep keepin' it down
If it's hangin' around
Yeah... Keep it down... keep it down... keep it down...
