

# Jack Ingram, Maybe She'll Get Lonely

She slammed the screen door  
Kicked up the dust pullin' out of here  
Probably headed for Baton Rouge  
Her taillights just disappeared  
I tried everything within my power to get her to stay  
Guess all I can do right now is get on my knees and pray

## CHORUS

Maybe she'll get lonely  
Maybe she'll turn that wheel around  
Maybe she'll miss me  
Before she hits the edge of town  
Cause I love her I need her  
I can't live without her  
Yeah the only hope that I've got left is  
Maybe she'll get lonely

Right now she's angry  
As mad as I've ever seen  
And if she makes it a hundred miles  
That means she's breakin' free  
I think time is of the essence I keep ringin' her phone  
It ain't lookin too good right now before she's too far gone

## REPEAT CHORUS

Yeah I love her I need her  
I miss her I want her  
I can't live without her

Maybe she'll get lonely  
Maybe she'll get lonely  
The only hope that I've got left is  
Maybe she'll get lonely  
Maybe she'll get lonely
