

Jack Johnson, In Between Dreams Medley

I wanna wake up
and find my way out from in between these dreams
It's better when we're together baby
You look so pretty sleeping next to me
but you'll never never know
we feel so certain
but we don't know a thing
Cept for when I wake up in the morning
and im sitting in the shade
eating banana pancakes we made
With all the good people
really not so hard to find
Theres no other way
When my mind is a mess well
I think that its best that we wait
so im sitting waiting wishing
That you will believe in some kind of
superstitions baby.
Then you could see if we staple it together
and call it bad weather

Oh na na here I come
Oh now here I come
