

Jack Off Jill, Devil With The Black Dress On

Wash off those scabs dear
or fingernail pick them clean
Pray to all your long lost demons
and justify your means

Devil has a new shape
Devil has a new ride
Devil has a problem but he locks it up inside
Shit angel

Kids sure like the devil these days
and I'm the devil with the black dress on
Do you want to own me angel
cause I own you now you're gone

Kids sure like the devil these days
and I'm the devil with the black dress on
Do you want to hate me angel
cause I hate you now you're gone

Did you believe it cause I said so
Did you believe it was true
Did you believe it cause I said so angel
I sure lied to you

Did you believe it cause I said so
Did you believe it was true
I'm eternal and infernal and I sure lied to you
Shit angel

Kids sure like the devil these days
and I'm the devil with the black dress on
Do you want to own me angel
cause I own you now you're gone

Kids sure like the devil these days
and I'm the devil with the black dress on
Do you want to hate me angel
cause I hate you now you're gone

Good girl with the black eyes
Believe in future past
Everything that I want happens
See how long that lasts

Devil has a hot ride
Devil high on speed
Devil has a black dress
So her arms can bleed

Kids sure like the devil these days
and I'm the devil with the black dress on
Do you want to know me angel
cause I know you now you're gone

Kids sure like the devil these days
and I'm the devil with the black dress on
Do you want to hurt me angel
cause I'm hurting now you're gone

Go go go gone
Go go go gone
Go go go go go go go
Gone
