

Jack Radics, I Need Sunshine

I need sunshine on a cloudy day.
I miss you baby, since you've been away.

You left me open, cause my heart you took.
And I've been waiting for so long.
But all the mysteries of a storybook,
On a page I stand alone.
If you walk here with me,
Then we would be alive.

I need sunshine on a cloudy day.
I miss you baby, since you've been away.

Tender moments that I need so much, baby,
Oh, I miss your touch.
Leave this chapter of that open book,
Return the love you took.
Don't leave your love away,
Come back and stay this time.

I need sunshine on a cloudy day.
I miss you baby since you've been away.

If you walk here with me,
Then we would be alive.

I need sunshine on a cloudy day.
and I miss you baby, ever since you've been away.

(rep.chorus and fade)
