

# Jack's Mannequin, At Full Speed

Should the canyons burn  
All night long like the 4th of July  
We won't need an alibi  
There's gas in the car  
Hours 'til sunrise  
And there's no guarantee  
That leaving town's gonna set us both free  
But stayin' here, it's just not what we need  
Yeah, stayin' here, it's just not what we need  
Because America shines, yes it does  
In between the white lines where I found love  
All alone on a road going nowhere  
Going nowhere  
Going nowhere  
At full speed  
And I have travelled far  
And I've seen things that I'd rather not say  
When you're travellin' it's better that way  
The darker the secret, the harder you'll keep it  
But it's no victory  
Always running away like I do  
Always know that I'll come back to you  
Always know that I'll come back to you  
Because America shines, yes it does  
In between the white lines where I found love  
All alone on a road going nowhere  
Going nowhere  
Going nowhere  
At full speed  
At full speed  
Because America shines, yes it does  
In between the white lines where I found love  
All alone on a road going nowhere  
Going nowhere  
Going nowhere  
At full speed  
Alone on a road going nowhere  
Going nowhere  
Going nowhere  
At full speed  
And should the canyons burn  
I'm catching right off the coast
