

# Jack Savoretti, Dr Frankenstein

The Dr. Frankenstein, with all the things you've brought to life  
tell me, are you satisfied? or are you happy now?

Dr. Frankenstein,  
there's innocence in every crime.  
Some in yours and some in mine.  
But it shouldn't be allowed.

Cause it's not where you go when you die  
It's how you live when you're alive  
Who you touch and how you feel it?  
It's not about the time that you have  
It's how you cry and how you laugh  
Who you love and how you mean it  
And do you mean it?

Dr. Frankenstein, did they think you've wasted all this time  
On making monsters in your mind  
Well I hope they make you proud

Cause it's not where you go when you die  
It's how you live when you're alive  
Who you touch and how you feel it?  
It's not about the time that you have  
It's how you cry and how you laugh  
Who you love and how you mean it  
And do you mean it?

It's not where you go when you die  
It's how you live when you're alive  
Who you touch and how you feel it?  
It's not about the time that you have  
It's how you cry and how you laugh  
Who you love and how you mean it  
No, no, no

It's not where you go when you die  
It's how you live when you're alive  
Who you touch and how you feel it?  
It's not about the time that you have  
It's how you cry and how you laugh  
Who you love and how you mean it  
And do you mean it?
