## Jack White, Taking Me Back (Gently)

I'll bet you do When you take out the figures And when you pull all the triggers, Well you're taking me back You're taking me back

When you listen to mystics As you lay at your picnics You're taking me back You're taking me back

I'll bet you do But not for long I'm alone I'll bet you do

When i am down on trhe floor You will see Taht no one will notice me It's braking my back braking my back when you drop the mail off to me and make us both coffee are you taking it back? Are taking me back?

I will be you do But not for long

I will bet you do feel alone But nopt for long

I'll breakimg me back I'll breakimg me back

When you forgive te friction And you talk about christmas Are you taking mty back Traking my back?
