

Jackie Boyz, Should've Loved Me Right

[Intro:]

You know baby...

Some people just don't realise what they have til' it's gone...

I'm gone.

[Chorus:]

You and me can never be, we already tried.

And I'm still in love with you, and I could've lied.

You never should've left, now I'm moving to the next.

You should've loved me right the first time. [x2]

[Verse 1:]

I thought that our love was meant to be, is this the way it's supposed to be?

Us falling apart, leaving torn with a broken heart.

We're not compatible, enough to see.

Truth is we've both done some hurtful things.

We don't see eye to eye, so baby maybe this is why...

[Chorus:]

You and me can never be, we already tried.

And I'm still in love with you, and I could've lied.

You never should've left, now I'm moving to the next.

You should've loved me right the first time. [x2]

[Verse 2:]

I've tried my best to give you everything, even to get down a diamond ring.

But there wasn't enough, baby girl you want it to much.

It makes it hard when it's been so long, what can we do if the love is gone?

Said I've tried to hold on, but the pain is just too strong...

[Chorus:]

You and me can never be, we already tried.

And I'm still in love with you, and I could've lied.

You never should've left, now I'm moving to the next.

You should've loved me right the first time. [x2]

[Outro:]

We used to be in love (I'm still in love with you)

Now it's all over

We used to be in love (Should've loved me like the first time)

Now it's all over

We used to be in love (Still in love with you...)

Now it's all over

We used to be in love...

Now it's all over...
