

Jackie Lomax, It Isn't Only Love

It isn't only when we kiss
It isn't only when you smile
It isn't only times like this
It isn't only for a while

It isn't only love
It's more than this - higher above
It isn't only you
It is us

It isn't only when we talk
It isn't only when you laugh
Like a prisoner I'm caught
Within your world and I'm happy that
It isn't only love
That keeps us two together like we are
It isn't who we wish to be
It's who we are

It isn't only what you see
It isn't only what you feel
That keeps you close enough to me
That I could touch your heart quite easily
It isn't only love
It's more than this, higher above
It isn't only what we wanted, it's what we have

It isn't only love'
