

# Jackie Lomax, Just The Way It Goes

I thought I knew you  
And you were my friend  
And now we're through, you and me  
It's definitely the end

That's just the way it goes  
That's just the way it goes  
That's just the way it goes

I thought we had it  
Covered in May  
But we only grabbed at it  
In those few short days

That's just the way it goes  
That's just the way it goes  
That's just the way it goes

If I had known what I know now  
I never would have tried to try again  
If I had done what I said I'd do  
It would have been me who left  
Instead of you

Do you remember  
Before it was gone  
Deep in December  
Our love was the sun

That's just the way it goes  
That's just the way it goes  
That's just the way it goes
