

Jackie Lomax, Our Love

Our love is much greater than any love affair since time began
It's so hard for me to understand something greater than myself
Is it my love? ' no no it's our love
Is it your love? ' no no it's our love
It's our love baby

Your kiss is a warm embrace
Brings me home instead of out someplace
You are my kind of special space after any place I go
It's not my love ' no no it's our love
And it's not your love ' no no it's our love
It's a combination baby

You are the island I return to from a sea of changes
You are the way when I am lost and all I see is strangers

You're the meaning keeps me going on
You are the rock my world is built upon
After all is said and done, you're the only one for me
It's not my love ' no no it's our love
And it's not your love ' no no it's our love
It's the two of us baby

It's a combination baby
It's not your love
It's not my love
It's the two of us
You are the meaning in my life
You are the way, you are the rock, you are the way

So hard to understand
