

# Jackie Lomax, You Within Me

For only moments I had you to build my dreams on  
For only moments of my time  
All too soon the world had turned around  
And left me no sight, no sense, no sound  
For only moments I could see  
From you within me

For only moments we had sat beside the water  
Taking stock of all we see  
But winds of change have brought the snow and ice to me  
And only you, only you can set me free  
For only moments the sun shone brilliantly  
From you within me
