

Jackopierce, Say You Love Me

You say that you love me
What exactly does that mean
Only good on weekends
Silent in between

Water drippin' slowly
You cup it to your mouth
The stream I'm controllin'
Control is runnin' out

Say that you love me
Say that you love me
Say that you love me
Say that you love me

Three hours later
Friends have come and gone
Lie about it later
Marks on the lawn

Summer sun it comes through
The blinds onto sheets
Breathless together
Exasperin' and weak

Say that you love me
Say that you love me
Say that you love me
Say that you love me

And it's hard for me to do
Three words board up the truth
I'm left to wonder how
They meant more than they do now

TV
Silver screen
Self and image
Nothing in between

Warm bodies
Balmy in this light
Cool breeze it comes in
Whispers more tonight

Say that you love me
Say that you love me
Say that you love me
Say that you love me

Say that you love me
Say that you love me
Say that you love me

Say that you love me
Say that you love me
Say that you love me
Say that you love me

Say that you love me
Say that you love me
Say that you love me
