Jackopierce, Woman As Salvation

"Talkin girlfriend as religion Of faith lost and new found Of disillusion with the system Of justice and redemption Of blind faith and let me downs

Talking 'bout my lady of good hope Woman as savior, my salvation A mighty queen who arrives at the end of time To salvage the cause and save my dying nation

And I was just a citizen of the city Making wages in the bakery in the square Kneading dough and thinking revolution When my lady, she appeared

Conversion on the spot to her Woman as religion - a time for holy war I raise a fist above my head and to her I swore My allegiance

Talking 'bout my lady of good hope Woman as savior, my salvation A mighty queen who arrives at the end of time To salvage the cause and save my dying nation

And there was revolution in the streets barricades at the parliament house strong victories and hard defeats in the battle to win my own crown and save my dying nation talking bout woman as salvation"
